Mister Pet, is always committed to Nature, producing cat food, with high sense of respect and responsibility of the environment.

RESPECT FOR NATURE AND ENVIRONMENT

Mister Pet uses photovoltaic panels to produce with renewable energy and filters for air and water, in order to return them to Nature without alteration.

FRIENDS OF ANIMALS

Mister Pet does not carry out tests on animals. The foods are tested by breeders under harmonious conditions, without causing any discomfort to dogs and cats.

Naturals

Natural and functional ingredients

The **Crockex Naturals** Cat line comes from the deep culture that Mister Pet has of raw materials and how they are cooked. A knowledge that has been handed down for three generations of the Gambarelli Family who can count on the ingredient's richness of the Territory, the Food Valley, where it all began.

Crockex Naturals has a high meat content (between 40 and 50%), of which one part is fresh (15%) respecting the carnivorous nature of the cat that needs high animal protein inclusion:

Crockex Naturals Cat contains 75% of animal proteins!

The **Crockex Naturals** Cat line has been designed using the best selected ingredients in our "Kitchen".
